

See “Trough level of infliximab is useful for assessing mucosal healing in Crohn’s disease: a prospective cohort study” on page 223.

Supplementary Table 1. Sensitivity, Specificity, PPV, NPV of ATI by assay A and assay B (Study 1)

	Sensitivity	Specificity	PPV	NPV
ATI of assay A	0.38	0.50	0.71	0.20
ATI of assay B	0.68	0.65	0.65	0.68

PPV, positive predictive value; NPV, negative predictive value; ATI, antibodies to infliximab.
